What makes our Veraseal 3 Mask different?

- Designed with minimal intentional leaks and elbows that work with CPAP/Bi-level and single or dual limb circuits.
- Adjustment Screw - provides a wide, continuous range of adjustment ensuring a custom fit while removing pressure from the bridge of the nose.
- FitRight 7-Day Headgear - maintains a secure and comfortable fit during treatment.
- Available in four sizes with simple and breathable quick-release headgear.

Featuring Patented AIR^ogel[®] Technology

Our patented AIR^ogel with an ergonomic design and luxurious feel reduces pressure while maintaining an effective seal.

A full line of disposable masks to meet your NIV needs, color coded for easy identification

Vented Mask with an anti-asphyxia valve for use with CPAP or bi-level devices

Nonvented Mask with an anti-asphyxia valve for use with single limb circuits

Nonvented Mask for use with dual limb circuits
