Breathe Easier with **Sleepnet**

Mission: Our passion for innovation drives us to help people breathe easier.

Vision: Our vision is to create life-enhancing respiratory products that are accessible to all.

Headquarters: Hampton, NH USA

About Us

We believe in building products that help people lead healthier lives. Our passion for innovation is at the core of everything we do, laying a foundation for creating new ideas and building better products. We are experienced manufacturers focused on developing best-in-class products that improve the health and well-being of our patients.

For more than 25 years, Sleepnet has manufactured gel masks and respirators built to help patients breathe easier. Our products include Continuous Positive Airway Pressure (CPAP) masks, Noninvasive Ventilation (NIV) masks, Pediatric masks, and Respirators sold worldwide in over 50 countries. With comfort and safety top of mind, we proudly design and manufacture our products in the United States. Our products are also compliant with the Buy American Act (BAA).

Respiratory Interfaces

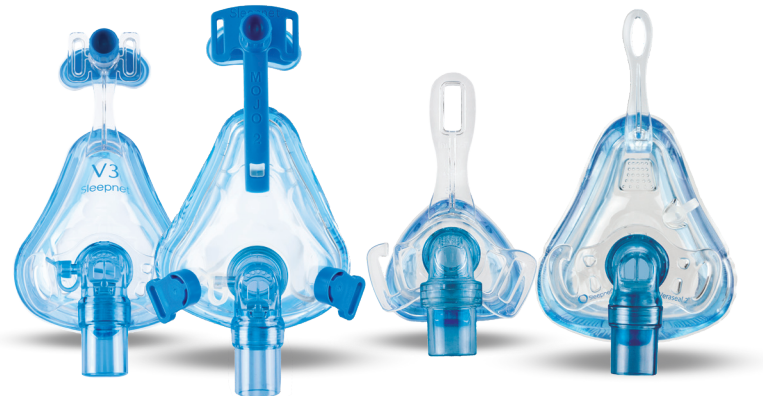

CPAP Masks

We offer continuous positive airway pressure (CPAP) masks and headgear in several styles and sizes to comfortably treat sleep apnea. CPAP users have different needs, preferences, and face shapes, so we've built a product offering that helps customers find the best fit and seal, along with a restful night of sleep.

NIV Masks

Our noninvasive ventilation full face and nasal masks feature innovative AIR[®]gel technology that provides a reliable seal and fit while keeping patients comfortable. Our offering includes an array of sizes, styles, and headgear to give the best fit for patients.

Pediatric Masks

Designed for children ages 2-12, our NIV pediatric masks and headgear come in several styles and sizes. We prioritize and expedite all pediatric orders in order to provide children with the care they need as quickly as possible.

envo[®] mask

Reusable Respirators

The envo[®] mask N95 respirator

Our reusable quarter-face respirator is NIOSH/CDC-approved, comfortable, secure, and designed for long-term wear. The envo[®] mask combines respiratory protection with superior comfort in a sleek, compact design. Approved for use with our N95 filters, the envo mask comes with or without an exhalation valve. NIOSH stands for the National Institute for Occupational Safety and Health, which is part of the U.S. Center for Disease Control & Prevention.

NEW

The envo[®] pro N95/N99 respirator

The next level of protection in our line-up of respiratory masks, the envo[®] pro is a reusable half-face elastomeric respirator certified by NIOSH/CDC. Designed to fit most faces, the envo[®] pro provides additional face coverage while providing secure protection and comfort. Approved for use with either our N95 or N99 filters. Our N99 filters come with a built-in exhalation valve.

Technology

AIR°gel® Cushion Technology

Our patented AIR°gel® technology provides a comfortable, ergonomic seal that conforms to the face and nasal bridge while providing a superior fit over competing silicone masks. Our innovative cushion technology is one of the softest products on the market and helps reduce skin irritation and marks.

Custom Fit Technology

Sleepnet engineers have created Custom Fit Technology that provides optimal flexibility, fit, and comfort. Our unique, shapeable masks give users a customized fit that makes putting on our masks a snap. This technology allows you to fit your mask to your face for nightly comfort.

Service

Your health is important, so we want to take the stress out of buying and using our products. We meet you every step of the way with user-friendly products and dependable service.
