Breathe Easier with Sleepnet

Mission: Our passion for innovation drives us to help people breathe easier.

Vision: Our vision is to create life-enhancing respiratory products that are accessible to all.

Headquarters: Hampton, NH USA

About Us

Since we were founded in 1990, Sleepnet has been committed to building high-quality respiratory products that help people lead healthier lives. Our passion for innovation is at the core of everything we do, creating a strong foundation for new ideas and better products that are accessible to all. Our products are also compliant with the Buy America Act (BAA).

Global Reach

Sleepnet connects with customers in over 60 global locations

Made in the USA

Sleepnet[®]

Respiratory Interfaces

Pediatric Masks

Designed for children ages 2-12, our NIV pediatric masks and headgear come in several styles and sizes. We prioritize and expedite all pediatric orders in order to provide children with the care they need as quickly as possible.

NIV Masks

Our noninvasive ventilation full face and nasal masks feature innovative AIR^ogel technology that provides a reliable seal and fit while keeping patients comfortable. Our offering includes an array of sizes, styles, and headgear to give the best fit for patients.

CPAP Masks

We offer continuous positive airway pressure (CPAP) masks and headgear in several styles and sizes to comfortably treat sleep apnea. CPAP users have different needs, preferences, and face shapes, so we've built a product offering that helps customers find the best fit and seal, along with a restful night of sleep.

envo[®]

Reusable Respirators

Envo[®] mask N95 Respirator

Our reusable quarter-face respirator is NIOSH approved, comfortable, secure, and designed for long-term wear. The envo[®] mask combines respiratory protection with superior comfort in a sleek, compact design. Approved for use with our N95 filters, the envo[®] mask comes with or without an exhalation valve.

Envo[®] pro N95 & N99 Respirator

The next level of protection in our line of respiratory masks, the envo[®] pro is a reusable half-face elastomeric respirator certified by NIOSH. Designed to fit most faces, the envo[®] pro provides additional face coverage while providing secure protection and comfort. Approved for use with either our N95 or N99 filters. Our N99 filters come with a built-in exhalation valve.

NIOSH-approved

Long-term wear

Comfortable

Reduced irritation

Superior seal

Non-fogging

AIR°gel[®] Technology

Our AIR°gel[®] technology is soft and flexible and helps to reduce irritation, making it suitable for extended wear. The ergonomically designed gel creates a shelf that folds in when touching the patient's nasal bridge. This reduces pressure on the nasal bridge and prevents overtightening of the mask, which can result in skin ulcers.

Custom Fit Technology

Sleepnet engineers have created Custom Fit Technology that provides optimal flexibility and comfort. Our unique, shapeable masks give users a customized fit that makes putting on our masks a snap. This technology allows you to fit your mask to your face for nightly comfort.

Quality

We dedicate ourselves to delivering exceptional products that meet the needs of our customers and adhere to the highest standards through rigorous material selection, robust manufacturing processes, comprehensive testing, and continuous improvement.

Why Choose Sleepnet?

We design and build quality respiratory products that help patients achieve better breathing outcomes. Using innovative AIRgel and Custom Fit technologies, Sleepnet offers dependable NIV and CPAP masks for adults and children that are manufactured in the US.

John S.
CPAP User

“The iQ² changed my perception of my Sleep Apnea. Previously, I used a full face CPAP mask that was cumbersome, intrusive, noisy, and made me feel as though I had a severe medical condition. My mouth was covered and my ability to move comfortably was restricted. The iQ² provides an entirely different experience. It fits comfortably and minimally over the nose for easy breathing while allowing for a quiet and restful night of sleep.”

Dr. Viral K. MD
Medical Director

“Our collaboration with Sleepnet has been incredibly beneficial for our young patients and their families. The quality of Sleepnet’s masks, especially in the pediatric range, is outstanding. Their masks are not only effective but also designed with the comfort and needs of children in mind. We’re particularly grateful for their prioritization of pediatric orders, ensuring that our most vulnerable patients receive the care they need promptly. The level of service is exceptional.”

Kristen B.
Respiratory Therapist

“In my experience as a respiratory therapist, the Sleepnet Ascend[®] mask stands out for its comfort and customizable fit, greatly aiding patient compliance. Its straightforward design is particularly beneficial for those new to CPAP therapy. Durable and easy to use, the Ascend[®] mask consistently excels in quality and effectiveness, making it a preferred choice for CPAP users.”

Claudia M.
RRT, RST, RPSGT, CCSH, Sleep Technologist

In my experience as a sleep technologist, the Sleepnet MiniMe[®] 2 mask stands out for its comfort and customizable fit, greatly aiding patient compliance. Its straightforward design is particularly beneficial for those new to CPAP therapy.

Sleepnet Benefits

Improved Patient Outcomes: Our innovative solutions are crafted with precision and care, ensuring maximum comfort and effectiveness for patients.

Cost-effective: We produce quality products at cost-effective prices that work for your bottom-line.

Ease of Use & Integration: Sleepnet provides training and resources that enable seamless integration of our products into your network.
